## Professional Certificate in Conservative Management of Pelvic Organ Prolapse – Additional Information Form

<b>First Name</b>	
<b>Surname</b>	

### Criteria 1

Completion of at least three professional development courses in pelvic floor dysfunction. This must include practical training in the conduct of vaginal examination, training in the assessment and management of pelvic organ prolapse, bladder and bowel dysfunction, and pelvic pain.

List the three relevant professional development courses below, including date of completion.

	<b>Course Name</b>	<b>Completion Date</b>
<b>Course 1</b>		
<b>Course 2</b>		
<b>Course 3</b>		

**Upload this form and evidence of completion of all 3 courses above to the online application form.**

<b>What date did you first undertake practical training in <i>per vaginam</i> examination?</b>	
<b>Were you formally assessed in performing this skill?</b>	<input type="checkbox"/> <b>Yes</b> <input type="checkbox"/> <b>No</b>

## Criteria 2

Attendance of at least one professional development activity relevant to pelvic floor dysfunction in the past 2 years.

Provide details of one professional development activity that you have completed in the last 2 years with the date of completion.

	Course Name	Completion Date
Course		

**Upload this form and evidence of completion of the professional development activity to the online application form.**

## Criteria 3 and 4

### 3. Volume of clinical practice in managing complex pelvic floor dysfunction

The course structure demands high prerequisite knowledge of physiotherapy management of bladder and bowel dysfunction and pelvic pain. Candidates need a minimum of one year full time equivalent clinical experience managing females with these conditions, including regular conduct of vaginal examination, subsequent to their training in this skill.

Please describe the training (e.g., professional development courses, mentoring) you have undertaken in the following:

Conduct of vaginal examinations	
Assessment and management of pelvic organ prolapse	

Assessment of bladder and bowel dysfunction	
---	--

**4. Recency of clinical practice in managing complex pelvic floor dysfunction**

Treating females with pelvic floor dysfunction in the past 5 years.

List your clinical experience managing complex pelvic floor dysfunction over the last five years. Include place of employment, duration of employment, number of days per week devoted to pelvic floor dysfunction and which conditions you have primarily managed.

How many vaginal examinations do you currently perform each week or month?

**Document Checklist**
